show_config_bgp.show
_bgp_pg_upd_src_cmd

show_config_bgp.show
_bgp_cmnm_upd_src_cmd

```
graph LR; A[show_config_bgp.show_bgp_nbr_upd_src_cmd] --> C[show_config_bgp.show_bgp_cmnm_upd_src_cmd]; B[show_config_bgp.show_bgp_pg_upd_src_cmd] --> C;
```

The diagram illustrates a mapping or inheritance relationship. On the left, there are two white rectangular boxes. The top box contains the text 'show_config_bgp.show_bgp_nbr_upd_src_cmd' and the bottom box contains 'show_config_bgp.show_bgp_pg_upd_src_cmd'. On the right, there is a single gray rectangular box containing the text 'show_config_bgp.show_bgp_cmnm_upd_src_cmd'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that the two source commands are mapped to or combined into the target command.
