

show_config_logging.show
_logging_server_cmd

show_config_ntp.show
_ntp_source_if

show_config_if_cmd.format
_intf_name

```
graph LR; A[show_config_logging.show_logging_server_cmd] --> C[show_config_if_cmd.format_intf_name]; B[show_config_ntp.show_ntp_source_if] --> C;
```

The diagram illustrates a mapping or transformation process. On the left, there are two separate boxes representing source data or commands. The top box contains the text 'show_config_logging.show_logging_server_cmd'. The bottom box contains the text 'show_config_ntp.show_ntp_source_if'. Arrows from both of these boxes point towards a single box on the right. This right-hand box is shaded gray and contains the text 'show_config_if_cmd.format_intf_name', representing the target or output of the process.
