

RuntimeError

```
classDiagram
    class RuntimeError
    class SonicLinkStateTrackingCLIErrors["sonic_cli_link_state_tracking.SonicLinkStateTracking CLIErrors"]
    SonicLinkStateTrackingCLIErrors --|> RuntimeError
```

The diagram illustrates a class hierarchy. At the top is a class box for 'RuntimeError', which is divided into three horizontal sections: the top section contains the class name, and the two bottom sections are empty. Below it is a larger class box for 'sonic_cli_link_state_tracking.SonicLinkStateTracking CLIErrors', which is divided into three horizontal sections: the top section contains the class name, and the two bottom sections are shaded gray. A blue arrow with an open triangular head points from the top section of the bottom box to the bottom section of the top box, indicating that the bottom class inherits from the top class.
